

Title: Composite Biosorbent For Treatment Of Waste  
Aqueous System(s) Containing Heavy Metals  
Inventor(s): Veeha M. Boddur et al.  
Appln. No. 09/912,627  
Docket # 6381/27397

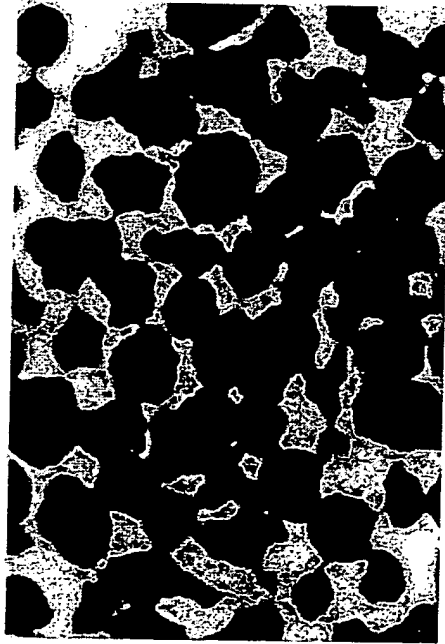

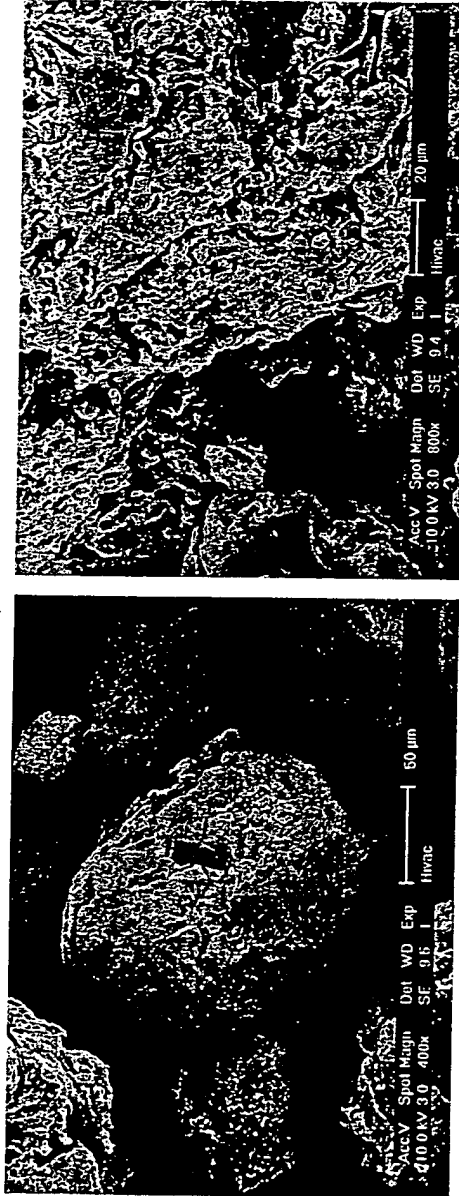

Figure 1: Photomicrograph of the Composite Chitosan Biosorbent showing the gross morphology

BEST AVAILABLE COPY

Title: Composite Biosorbent For Treatment Of Waste  
 Aqueous System(s) Containing Heavy Metals  
 Inventor(s): Veerar M. Boddu et al.  
 Appln. No. 09/912,627  
 Docket # 6381/27397

(a)

(b)

Figures 2(a) and (b): Scanning electron micrographs of the Composite Chitosan Biosorbent at two different magnifications (a) 400X and (b) 800X

Title: Composite Biosorbent For Treatment Of Waste  
 Aqueous System(s) Containing Heavy Metals  
 Inventor(s): V. V. Boddurthi  
 Appln. No. 09/912,627  
 Docket # 6381/27397

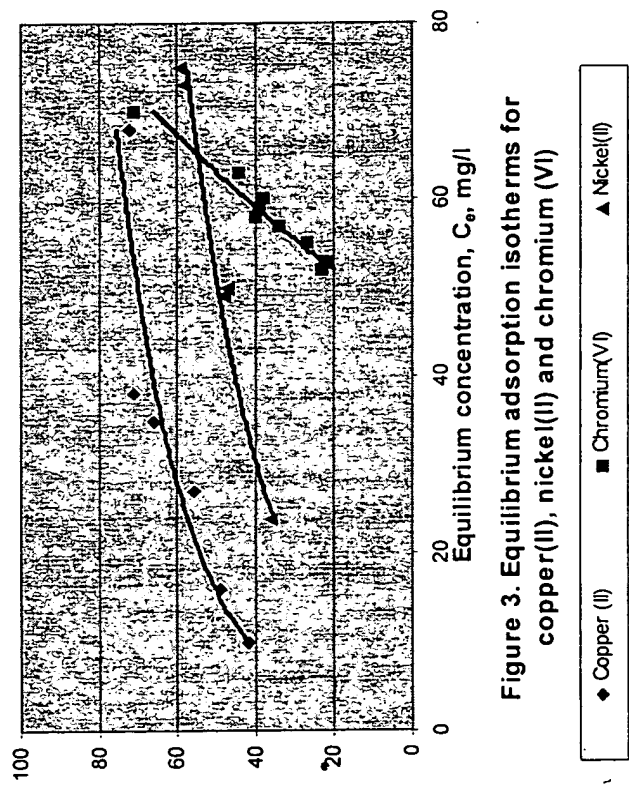

Figure 3. Equilibrium adsorption isotherms for copper(II), nickel(II) and chromium (VI)

BEST AVAILABLE COPY

Title: Composite Biosorbent For Treatment Of Waste  
Aqueous System(s) Containing Heavy Metals  
Inventor(s): M. M. Boddur et al.  
Appl. No. 09/912,627  
Docket # 6381/27397

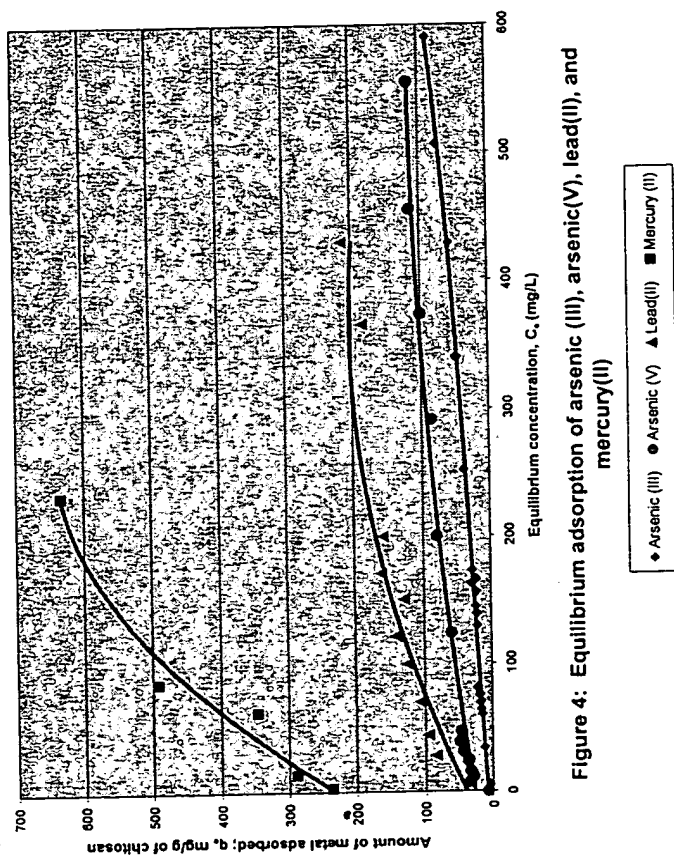

Figure 4: Equilibrium adsorption of arsenic (III), arsenic(V), lead(II), and mercury(II)

Figure 4: Evaluation of the biosorbent of the instant invention in a flow column setup.

Title: Composite Biosorbent For Treatment Of Waste  
 Aqueous System(s) Containing Heavy Metals  
 Inventor(s): Vetraraj M. Boddula et al.  
 Appln. No. 09/912,627  
 Docket # 6381/27397

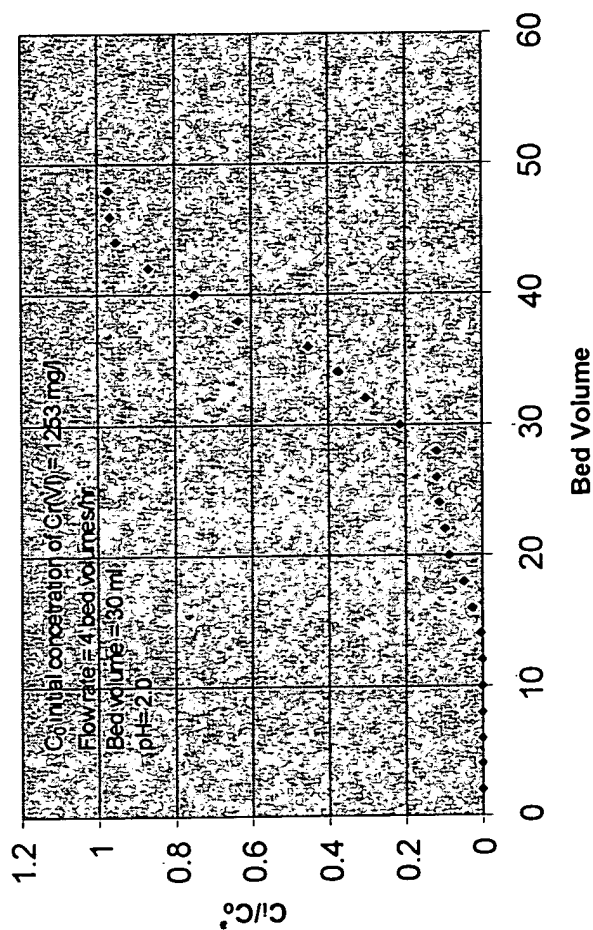

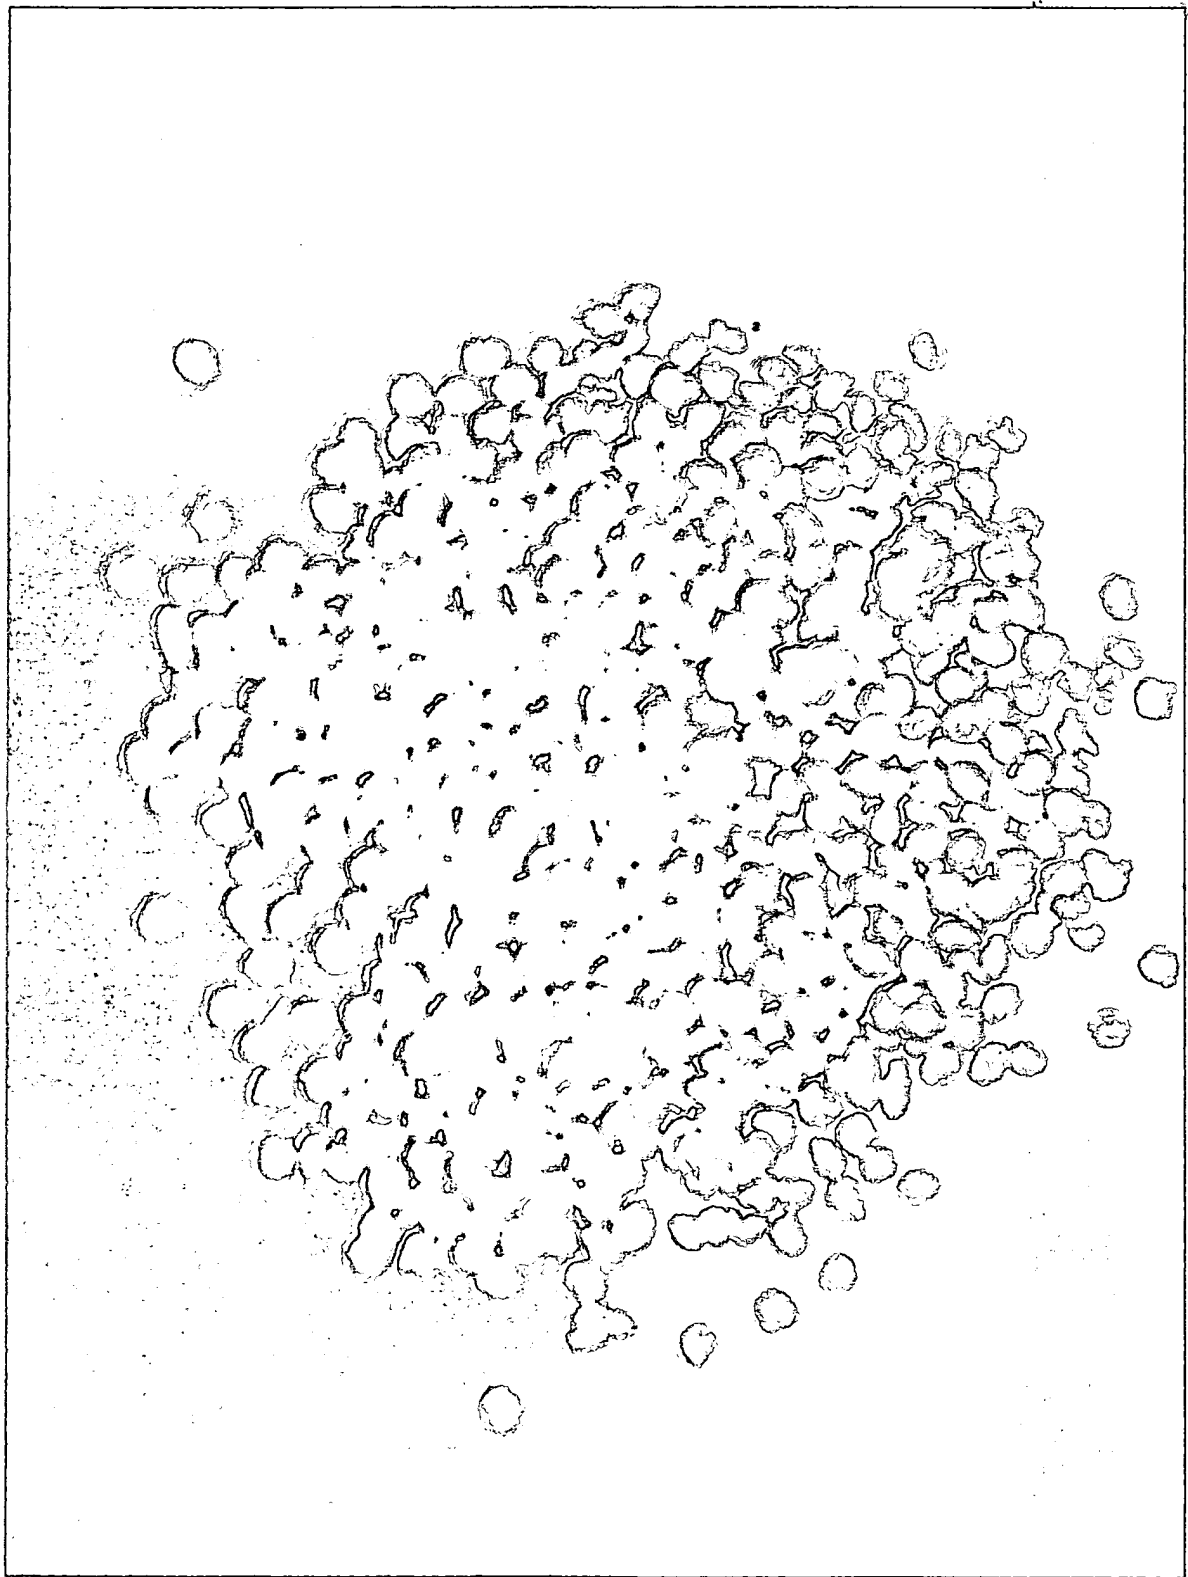

Figure 5. Column adsorption of Cr(VI) from rinsewater collected from a chrome plating facility in Illinois

BEST AVAILABLE COPY
